Re: Dietary Supplement Statement of Support Notification

To Whom It May Concern:

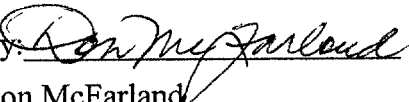

McLind Corporation, P.O. Box 3669 Torrance, CA 90510-3896, who is the distributor of the following dietary supplement product, intends to make the following statement(s) of support:

"Supports Healthy Bones*"

"Vitamin D is a fat-soluble vitamin that helps maintain healthy bones by stimulating the absorption of calcium in the body. The body has the ability to make vitamin D naturally when exposed to sunlight. During the winter months, however, the body's vitamin D stores are low, increasing the risk of deficiency. Sunscreens also block the body's ability to make vitamin D from sunlight. Vitamin D deficiency can contribute to accelerated bone loss and reduced calcium utilization.*"

These claims are being made for a product named Lindberg® Vitamin D 400 IU. This submission is being made in compliance with 21 CFR §101.93.

The undersigned is an authorized representative of the McLind Corporation and certifies that the information contained in this notice is complete and accurate, and that McLind Corporation has substantiation that the above statement(s) is (are) truthful and not misleading.
